THE CONCEPT

Hare'n Scramble is not a classic enduro race. There is no fixed course. You chase the legendary pink bunny and decide which of the 18 trails you ride, in which order, and at what pace. Solo, in a two-rider team, or with your crew: strategy matters as much as riding skill. Come back to the finish line with as many trails as you can.

TWO CHALLENGES — ONE EVENT

BLACK CHALLENGE

The full experience. All 18 trails available, including the black lines. Long, demanding day — riding skill and smart pacing required.

BLUE CHALLENGE

The relaxed take. Without the black trails, but with the same format and vibe. Ideal for riders who want the ride without the max effort.
